

INTERPUMP PUMP WS201 15L/200 BAR 1450 RPM

PRODUCT DESCRIPTION

The pumps designed and built by Interpump are more compact, manageable and silent, configured to facilitate the replacement of spare parts. All pump components are constructed of the highest quality materials that are systematically checked and tested at every production stage. Assembly is performed with maximum precision so that the finished product will withstand the heavy wear-and-tear of industrial usage.
